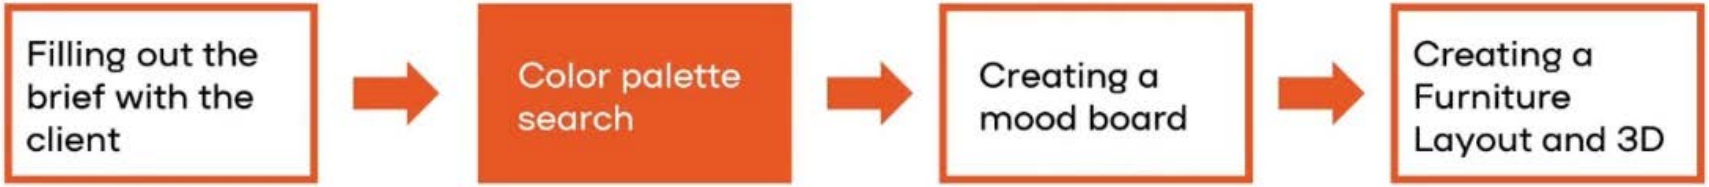
Creating a color combination for the interior

Theory

What will we discuss today?

- What are color schemes/color palettes?
- What are complex colors?
- How to apply color schemes in interior design?

At what stage should the color palette be chosen?



diskill

How to choose a color palette for the interior?

We base on the client's preferences from the brief

"Modern style, minimalism.

Basic colors: white, light gray, dark gray, beige, chocolate.

In accents: terracotta, swampy, and other deep colors (not too bright)."

What are complex and hue colors?

Hue colors

"Pure" colors without any added black, white or gray

diskill

Complex colors

Sophisticated, refined colors

Complex colors typically refer to complex, refined, or nuanced colors, often combining multiple shades or undertones. These colors can add depth and elegance to a design or space

They are based on hue color ("pure" color)

"Pure" color

Orange
